Assured Volume of Bottling (MGQ): Following assured volumes shall be considered during the 10 year Contract period -

Year	Assured Volume (% of Plant Capacity of 12 TMTA)
Year 1 - 10	100%

The MGQ is based upon the assumption that the contracted party shall develop adequate facilities for attaining the output for 12 TMTA and shall deploy sufficient resources for operating the plant at peak levels throughout the contract period to bottle the cylinders as per maximum plant capacity. OMC shall not be obliged to make any payment as compensation / otherwise in case the party is not able to meet the stated plant capacity because of inherent deficiencies in the facility or operations. The onus to prove that sufficient arrangements exist and are made available at all times for meeting MGQ shall rest upon the party. MGQ can be assured only if the facilities are adequate for achieving capacity of 12 TMTA.

In case, OMC is not able to provide adequate bulk / cylinders for the assured volume (MGQ), the fixed cost i.e. 60% of the finalised Bottling charges shall be re-imbursed. The working is illustrated below assuming finalised Bottling charges of Rs. 1000/- per MT (excl GST) and shortfall in MGQ as 1000 MT in a particular year.

- a. Difference in Qty. vis-à-vis MGQ = 1000 MT
- b. Bottling charges (Rs per MT) = 1000/-
- c. Compensation to the Party (Rs) = $1000 \times 1000 \times 0.6 = \text{Rs. } 6.10 \text{ Lac}$

16.2	In case, IOCL is eligible to avail Input TAX Credit (ITC), the same shall be reduced from the delivered price to arrive at the net landed cost. IOCL shall reimburse GST levied as per TAX invoice issued by the Contractor as prescribed under respective GST Acts and Rules. In case the contractor is not permitted to issue Tax Invoice the same should be clearly mentioned in the price Bid.
